

Saitama University (Saitama Prefecture)

“We offer a wide variety of subjects to choose from.”

■ University Overview

・1. Summary

Located in the Tokyo metropolitan area, Saitama University fulfills its mission as a medium-sized national university. The current academic term marks the 65th year since the university's founding in 1949 as a mother school for Urawa High School, Saitama Teachers College and other affiliated institutions under Japan's former educational system. The university is steadily expanding its facilities for education and research, as it continues to grow at the heart of the scientific exchange in the region. As host to over 530 international students during the prior fiscal year, the university also helps further stimulate international exchange. The number of researchers from other countries, as well as participation by the university's instructors in international research activities are also increasing. In addition to five faculties, Saitama University has established three master's programs to further promote advanced education and research, including master's programs and courses leading to a Ph.D., where candidates for advanced degrees can engage in advanced graduate school education and research. The university has also organized a post-doctorate program, through cooperation between the Graduate School of Science and Engineering and RIKEN, a National Research and Development Institute, and is leading the way for other universities in developing new forms of graduate school education.

The Center for Japanese Language Education provides support to education, guidance and advice for international students and also gives opportunities with diverse cultural backgrounds to study Japanese, Japanese culture and heighten their understanding of Japan.

The Faculty of Liberal Arts, which includes diverse specialized fields in the humanities and social sciences, is characterized by an emphasis on interdisciplinary studies that probe and expand the boundaries between various fields of knowledge while simultaneously encouraging integrated research that is organically related to each field and providing the foundations for research in each respective field. The fundamental policy of the Faculty of Liberal Arts is to educate individuals who will be prepared with the education, flexible thinking and integrated decision-making capabilities suited to today's world, by balancing special expertise with a comprehensive, interdisciplinary outlook.

The Faculty of Education aims at fostering the individuals who will be responsible for the education leading to the next-generation society while being able to understand global developments. Students can learn the specialized education, theory and techniques needed to utilize superior educational practices as school educators and life-long learning instructors. Although “solving problems through education” may seem to be a roundabout method, it is the most certain, productive approach. Being involved in education is also one way to address the myriad issues confronting Japan and the world.

The Faculty of Economics offers 4 major courses (Economic Analysis, Global Business and Social Development, Business Innovation, and Law and Public Policy), each of which teaches some core subjects in English, as well as a study focus of 'Japanese Studies' within Social Science.

Our degrees are designed to equip students with the skills to identify, analyse and solve problems, in a unique learning environment with student diversity and low student-to-teacher ratio.

2. International exchange program

Saitama University has international exchange agreements with 69 universities and 50 departments.

3. Number of International students and Japanese Language and Culture Studies students accepted for the past 3 fiscal years

2015: International students: 527

Japanese Language and Culture Studies: 5

2014: International students: 532

Japanese Language and Culture Studies: 6

2013: International students: 539

4. Characteristics of Saitama Prefecture and Saitama City

With a population of about 7.23 million, Saitama Prefecture is an inland prefecture located at the center of the Kanto Plain bordering Tokyo, which can be reached in one hour by Train. As a strategic transportation hub of eastern Japan, Saitama has experienced expansive progress as a prefecture supplying many of the key functions for Japan's capital.

The prefecture capital is Saitama City, located 20km north of Tokyo. With a population of about 1.23 million, Saitama has developed as a city of education and culture of inheriting the tradition from the Edo era and is frequently noted as an urban residential center offering convenient, comfortable living, with a well maintained transportation system, a lush green environment and active promotion of sports activities.

■ Outline of the Course

1. Characteristics of the Course

This course seeks to study mostly Japanese language between October and March as the first semester. And the students continue to study Japanese between April and September as the second semester, and expand knowledge of Japanese culture which is their specialized field. The course emphasizes fostering advanced specialists such as internationally-minded people who become a bridge between Japan and their home countries.

2. Number of students to be accepted: 9
(Embassy recommendation 6,
University recommendation 3)

3. Applicant qualifications and conditions

Applicants who wish to attend courses must fulfill the following requirements (1) and (2).

(1) Japanese language proficiency

Applicants must be able to discuss, read and write about general topics, and must be able to comprehend the content of the courses in which they will major while listening to class subject material in Japanese.

Applicants preferably will have passed at least the N2 level of Japanese Language Proficiency Test conducted by the Japan Educational Exchanges and Services.

(2) Individuals who will major in Japanese Studies, or individuals who will study in fields related to Japanese Studies while pursuing a major in another field.

4. Course aims

Students expand their specialized knowledge and skills related to Japanese language and culture. Moreover, they will be able to gather information in Japanese and get more advanced writing and presentation skills in Japanese.

Students seek to lay a strong foundation as a Japan-related expert in their home countries in the future.
