

Oizumi Kojo, Kawaguchi City, Saitama Prefecture Discover at Kawaguchi Oizumi Kojo! “See”, “Discover”, “Learn” — JTB Special Hands-on Tour

“The JTB Brighter Earth Project” is an initiative where customers, local communities, and JTB Group employees come together to create a vibrant future. By cleaning up sightseeing areas, planting trees while learning about local culture, and promoting environmental beautification and people-to-people exchange, we aim—together with everyone involved—to “revitalize communities and bring smiles to people.”

Oizumi Kojo in Kawaguchi City, Saitama Prefecture, is a complex themed on “food, agriculture, and the environment,” utilizing the site of a former foundry. It features an organic cafe, market, craft brewery, farm, and more, proposing a spiritually enriching lifestyle and is a popular place of relaxation open to the local community. We will be holding special experience tours and workshops to help you rediscover the charms of Kawaguchi and create an even more wonderful environment.

No participation fee is required
