<Notes on entering into a contract>

- Please set the insurance period (insurance contract period) according to the "study period" – from when you leave your residence for the purpose of studying abroad to when you return to your residence. Residence refers to the premises in the case of a detached house, or inside the apartment where the insured resides in the case of an apartment building.

In addition, the insurance will end when you return to your residence, even if midway through the insurance period.

- The insurance period is counted including the day of your departure. For instance, the insurance period is "Up to 8 days" for "study abroad from June 1st to June 8th", "up to 2 months" for "study abroad from June 1st to July 31st" and "up to 3 months" for "study abroad from June 1st to August 1st".

# Overview of overseas travel insurance (Outline of main endorsements, etc.)

Residence refers to the premises in the case of a detached house, or inside the apartment where the insured resides in the case of an apartment building.

\* When the degree of injury or illness becomes serious due to a physical impairment or illness that preexisted at the time of the injury or illness, we will pay the amount equivalent to when there was no effect.
