

# Congratulatory Message from President Wei-Ta Pan, Soochow University

My deepest congratulations on your 70 years of excellence.

Cooperation between your Faculty of Economics and our Schools of Business, now in its tenth year, has grown beyond our expectations, and we are pleased to see it mature into what it has become. Numbers of Soochow University students now remark on the unique experiences and perspective they have gained from Saitama University and how it has positively impacted their personal and professional lives.

We take pride in naming Saitama University an educational partner, an institution that educates and empowers students, and through its programs has helped strengthen the academic relationships between our two institutions and beyond.

Congratulations...here's to the next 70!
