Forms designated by the Graduate School

Admission Application Form, Examinee Card, Photo Card, Curriculum Vitae
Form to Which the Payment Receipt Certificate is to Be Attached
Summary of Master's Degree Thesis, and Research Progress Reports No. 1 and 2
Research Achievement Report
Research Plan
Permission for Admission Examination
Curriculum Vitae (must be submitted by foreign students)
Statement on Research Achievements (must be submitted by applicants for adult admission examination)
Request for Disclosure of Admission Examination Information
Examination Report on Certification of Eligibility for Application for Admission Examination
(for application for individual examination of eligibility for application)

【Doctoral Program of Graduate School of Science and Engineering】

In the Doctoral Program, based on the basic to applied academic skills cultivated to the Master's Program, students will develop deep knowledge and insight in specialized fields, the ability to constantly improve themselves, and through polishing the ability in understanding of basic and related fields as well as flexible understanding of these, we aim to develop the following human resources.

- (1) Researchers with high originality and high-level engineers who possess a wide range of knowledge that can respond to new streams of academics or new social and industrial trends, and who can create new academic spheres or new technologies and industries.
- (2) Working researchers and high-level engineers who possess sufficient basic academic skills with bird's-eye view to cope with the rapid progress of science and technology and can play active role internationally, and foreign researchers and high-level engineers who can play an active role as a leader in their own countries.

In each course, to actively accept those who have the aptitude to be educated Doctoral Course as shown below, examinations will be conducted to determine basic academic ability and basic knowledge related to specialized fields, as well as an ability and motivation to carry out research.

Course in Life Science

Those with background knowledge in any of the areas of chemistry, physics, mathematics, biochemistry, molecular biology, cell biology, genome analytics, brain science and other various biological science, who sympathize with reasonable theories and principles that control life phenomena, and thoughts on the co-existence and co-living necessary for the maintenance of biological society and the environment, and aim at any of the following:

1. Those who aim at becoming an educationist or scientist in the field of life science at universities or higher education institutions in the future
2. Those who aim at making social contribution at public institutions, companies, academic institutions or not-for-profit activity organizations through the use of knowledge of life science in the future
3. Those who aim at creating new industrial technology in the fields of life and the environment by learning life science-related biotechnology

We are going to conduct several entrance examinations as below:

I. General entrance examinations

We will comprehensively evaluate by English written examination (for foreign student, there also maybe a Japanese examination) and asking for a master's thesis or research progress report and research plan at oral examination. We will ask for basic knowledge and foreign language skills of specialized field at written examination and ask for ability and motivation to conduct the research at oral examination.

II. Adult entrance examinations

An oral examination on research achievement, research plan and English will be conducted to test the ability to carry out research and motivation for research.

Course in Material Science

1. Those who have basic scholastic ability, basic knowledge of the fields of specialty, linguistic ability, and communication capability necessary to aim at becoming a highly global and creative, excellent researcher, educationist or professional engineer and have a clear-cut goal and ambition toward the future

2. Those who have strong interest in and definite awareness of unsolved issues in materials science, and those who have aspirations for creative and advanced research
3. Those who have strong interest in humankind and social issues including the global environment, as well as in technical demands to solve them, act aggressively, and aspire for making contribution to society through technological innovation

We are going to conduct several entrance examinations as below:

I. General entrance examinations

We will conduct an oral examination on master's thesis or research progress report and research plan, and evaluate the basic scholastic ability and basic knowledge, foreign language skills, and communication skills of specialized field and ask for ability and motivation to conduct the research.

II. Adult entrance examinations

An oral examination on research achievement, research plan and English will be conducted to test the ability to carry out research and motivation for research.

Course in Mathematics, Electronics, and Informatics

1. Those who aim at developing professional research ability in mathematics, electrical engineering, electronics, and applied physics information and computer sciences fields
2. Those who aim at increasing competency to engage in high-level professional occupations

We are going to conduct several entrance examinations as below:

I. General entrance examinations

We will comprehensively evaluate by English written examination (for foreign student, there also maybe a Japanese examination) and asking for a master's thesis or research progress report and research plan at oral examination. We will ask for basic knowledge and foreign language skills of specialized field at written examination and ask for ability and motivation to conduct the research at oral examination. * TOEIC or other external examination score is accepted as substitution

II. Adult entrance examinations

An oral examination on research achievement, research plan and English will be conducted to test the ability to carry out research and motivation for research.

Course in Mechanical Engineering and Science

1. Those who have the ability to grasp the essence of the matter objectively and think scientifically and logically when conducting research.
2. Those who aim at making social contribution as a highly professional engineer or researcher, and are able to tackle research with keen foresight and insight in the field of production science and technology, and human support technology.
3. Those who can challenge new research topics with affluent creativity and strong belief.

We are going to conduct several entrance examinations as below:

I. General entrance examinations

We will conduct an oral examination on research achievements, research plan and English (for foreign student, there also maybe include a Japanese). We will comprehensively evaluate the basic scholastic ability and basic knowledge in specialized field, foreign language skills, communication skills, ability and motivation to conduct the research.

II. Adult entrance examinations

An oral examination on research achievement, research plan and English will be conducted to test the ability to carry out research and motivation for research.

Course in Environmental Science and Infrastructure Engineering

1. Those who have awareness of environmental issues, and have interest in preservation of the environment

in the fields of environmental science, environmental planning and social infrastructure engineering, as well as in creation of social infrastructure that is in harmony with the environment

2. Those who have master's degree-level knowledge and scholastic ability with respect to circulation systems, measurement controls, ecology, regional planning and design, limnology and the marine environment, structure and materials system, engineering seismology, and/or environmental geotechnics
3. Those who can accurately understand their own aptitude and proactively develop and execute research under the guidance of supervisors after entering the graduate school, and have a firm will to grow as a highly creative scientist with global insight
4. Those who have expertise and qualifications in the fields of environmental science and social infrastructure engineering necessary for research, and have a strong spirit of inquiry for clarification of phenomenon and are enthusiastic about solving problems.

We are going to conduct several entrance examinations as below:

I. General entrance examinations

We will comprehensively evaluate by English written examination (for foreign student, there also maybe a Japanese examination) and asking for a master's thesis or research progress report and research plan at oral examination. We will ask for basic knowledge and foreign language skills of specialized field at written examination and ask for ability and motivation to conduct the research at oral examination. * TOEIC or other external examination score is accepted as substitution

II. Adult entrance examinations

An oral examination on research achievement, research plan and English will be conducted to test the ability to carry out research and motivation for research.

Course in Joint Frontier Studies

- Nuclear Physics and Astrophysics field: conform to Course in Material Science
- Interdisciplinary Electronic Technology field: conform to Course in Mathematics, Electronics and Informatics
- Brain Science field: conform to Course in Life Science
- Interdisciplinary Theoretical and Mathematical Science: confirm to Course in Material Science

I. Doctoral Courses of Graduate School of Science and Engineering, Saitama University
[Admissions for the Semester Starting in April 2026]
[Admissions for the Semester Starting in October 2025] Application Procedures

The Doctoral Courses of Graduate School of Science and Engineering will invite students who will be admitted for the semester starting in April 2026 and the semester starting in October 2025, as follows. The number of students who will be admitted for the semester starting in October 2025 is unspecified, but it will be only a few.

1. Number of Students Invited

Program	Name of Course	Number of Students Invited		Remarks
		Admissions for the semester starting in April 2026	Admissions for the semester starting in October 2025	
Science and Engineering	Life Science	56	Unspecified but only a few	Includes foreign students
	Materials Science			
	Mathematics, Electronics and Informatics			
	Mechanical Engineering and Science			
	Environmental Science and Infrastructure Engineering			
	Joint Frontier Studies*			

*Nuclear Physics and Astrophysics field, Interdisciplinary Electronic Technology field, Brain Science field and Interdisciplinary Theoretical and Mathematical Science

Note: Students may not be accepted due to the mandatory retirement of a professor or any other cause. Due to this reason, be sure to consult with the professor you want to be instructed by before you submit the application documents.

2. Application Eligibility

2-1 <Admissions for the Semester Starting in April 2026>

Applicants should meet any one of the following criteria:

- (1) Those who have earned a master's degree or professional degree or are expected to earn it by March 2026;
- (2) Those who have been granted any degree equivalent to a master's degree or professional degree in any foreign country or are expected to be granted it by March 2026;
- (3) Those who have completed correspondence courses provided by any foreign school in Japan and have been granted any degree equivalent to a master's degree or professional degree or are expected to be granted it by March 2026;
- (4) Those who has been conferred a degree equivalent to a master's degree or professional degree by completing a foreign education course in Japan provided by an educational institution which is recognized as equivalent to a foreign graduate school by the Minister of Education, Culture, Sports, Science and Technology.
- (5) Those who has completed a course at the United Nations University and has been conferred a degree equivalent to a master's degree.
- (6) Those who has been recognized as having scholastic aptitude that is equal to or greater than that of a master's degree holder by completing a curriculum at a school of the foreign country, an educational institution designated as referred to in (iv) or the United Nations University and passing the requirements equivalent to an examination and review prescribed in Article 16.2 in Standards for the Establishment of Graduate Schools.
- (7) Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology; and
- (8) Those who have been recognized by the Graduate School as having the scholastic ability of or higher than those who have earned a master's degree through individual examination of application eligibility and have reached the age of 24 or will reach the age of 24 by March 31, 2026.

* For the application eligibility (7) and (8), please refer to "Certification of Application Eligibility (7) and (8)" on page 7.

2-2 <Admissions for the Semester Starting in October 2025>

Applicants should meet any one of the following criteria:

- (1) Those who have earned a master's degree or professional degree or are expected to earn it by September 2025;
- (2) Those who have been granted any degree equivalent to a master's degree or professional degree in any foreign country or are expected to be granted it by September 2025;
- (3) Those who have completed correspondence courses provided by any foreign school in Japan and have been granted any degree equivalent to a master's degree or professional degree or are expected to be granted it by September 2025;
- (4) Those who has been conferred a degree equivalent to a master's degree or professional degree by completing a foreign education course in Japan provided by an educational institution which is recognized as equivalent to a foreign graduate school by the Minister of Education, Culture, Sports, Science and Technology.
- (5) Those who has completed a course at the United Nations University and has been conferred a degree equivalent to a master's degree.
- (6) Those who has been recognized as having scholastic aptitude that is equal to or greater than that of a master's degree holder by completing a curriculum at a school of the foreign country, an educational institution designated as referred to in (iv) or the United Nations University and passing the requirements equivalent to an examination and review prescribed in Article 16.2 in Standards for the Establishment of Graduate Schools.
- (7) Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology; and
- (8) Those who have been recognized by the Graduate School as having the scholastic ability of or higher than those who have earned a master's degree as a result of individual examination of application eligibility and have reached the age of 24 or will reach the age of 24 by September 30, 2025.

* For the application eligibility (7) and (8), please refer to "Certification of Application Eligibility (7) and (8)" on page 7.

If you have any questions about the application eligibility, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering (telephone: 048-858-3430).

3. Application Procedure

(1) Method of Application

Applicants should submit the following documents in person or by mail. Please choose the time of admissions, i.e., the semester starting in April 2026 or the semester starting in October 2025. Please be fully aware that you are not allowed to change your choice after submitting the application documents.

If sending the documents by mail, please write "Application Documents for the Doctoral Courses of Graduate School of Science and Engineering Enclosed" on the envelope in red, and send them by registered mail, so that the documents may reach us on or prior to the deadline.

(2) Application Period

From Monday, June 23 to Friday, June 27, 2025

For those who apply under the application eligibility (7) and (8), the documents must reach us on or prior to Wednesday, June 18, 2025.

The acceptance hours are between 9:00 and 16:00.

(3) Documents to Be Submitted

Documents to be Submitted	Matters That Require Attention
Admission application form, examinee card, photo card, curriculum vitae	Please complete the forms designated by the Graduate School. A front view, upper body photograph without a hat taken within the last 3 months should be affixed onto the designated space.
Undergraduate certificate and official transcript	Please submit the undergraduate certificate and official transcript prepared by the president or dean of the university/college you have graduated from.
Certificate of (expected) completion of the master's program, and official transcript	Please submit the certificate of (expected) completion of the master's program, and official transcript prepared by the president or dean of the university/college you have graduated from.
Application fee:	Application fee: JPY30,000 Method of payment: Make a payment at a convenience store. Please refer to the "How to Pay the Application Fee at a Convenience Store" attached hereto.

	<p>* Please pay the application fee at your earliest convenience (acceptable even prior to the application period), and note that paying after the expiry of the application period is not acceptable.</p> <p>(Note) Those who are expected to complete the master's program of the Graduate School of Saitama University are not required to pay the application fee.</p> <p>Exemption from payment of the application fee:</p> <p>Applicants whose school expenses payers reside in any of the regions governed by the Disaster Relief Act and can obtain a disaster victim certificate of total destruction, outflow or partial destruction of house issued by the competent municipality during the period from April 1, 2025 to the time of application are exempted from payment of the application fee.</p> <p>Applicants who wish to be exempted from payment of the application fee should print out the request form for exemption from payment of the application fee from the website of the University, complete the form, and submit it together with the application documents and the disaster victim or other certificate. (If this is the case, please refrain from paying the application fee.)</p> <p>If you cannot submit the disaster victim or other certificate at the time of application, please pay the application fee and submit the request form for exemption from payment of the application fee only. When you submit the disaster victim or other certificate at a later date, we will refund the application fee paid.</p>
Form to which the payment receipt certificate is to be attached	The form designated by the Graduate School to which the "payment receipt certificate" issued by the relevant financial institution is attached.
Master's degree or other thesis	<p>(1) For those who have prepared a degree thesis at the time of completion of the master's program, a copy of the degree thesis and its summary (up to 2,000 characters (or up to 500 words in English)) using the sheet designated by the Graduate School.</p> <p>(2) For those who are expected to complete the master's program, a copy of the degree thesis (temporary binding is valid) and its summary (up to 2,000 characters (or up to 500 words in English)) using the sheet designated by the Graduate School.</p> <p>(3) For those who do not fall under (1)(2), a research progress report (up to 2,000 characters (or up to 500 words in English)) using the sheet designated by the Graduate School.</p>
Research achievement report	If any academic papers, research presentation or other materials are available, please submit them by attaching extra prints or copies of them to the sheet designated by the Graduate School.
Research plan	Up to 1,000 characters (or up to 300 words in English) using the sheet designated by the Graduate School.
Permission for admission examination	If you are enrolled with the doctoral program of any other graduate school, please submit a permission for admission examination (in the form designated by the Graduate School) issued by the dean of such other graduate school.
Examination statement of certification of eligibility for application for admission examination	If you apply under the eligibility criteria (7) or (8), please complete the form designated by the Graduate School.
Research experience certificate	If you choose to submit the examination statement of certification of eligibility for application for admission examination mentioned above, please attach this certificate to the application documents.
Envelope for sending examinee card	Envelope for sending the examinee card. Regular-sized envelope (12 cm x 23.5 cm) on which the address, addressee and postal code are indicated, with a ¥110 stamp affixed.
TOEIC or other external examination score	Please submit the score certificate at the time of application. if it is designated by the course. Note that applicants are not allowed to replace the score certificate once submitted.
<p>Foreign students are requested to submit curriculum vitae (in the form designated by the Graduate School) and a copy of residence card.</p> <p>If you are unable to submit a copy of residence card, please submit the written reason, as well as a copy of your</p>	

passport.
If you are a Japanese government-sponsored student, please attach the “certificate of the status of a Japanese government-sponsored student” (to be issued by the university with which you are enrolled).

- (4) Office to Which You Should Submit the Application Documents
Graduate School Affairs Section, Graduate School of Science and Engineering, Saitama University
Shimo-Okubo 255, Sakura-ku, Saitama-shi, 338-8570 JAPAN

4. Prior Consultation for Applicants with Disabilities (Refer to page 14)

5. Screening Methods

- (1) Applicants will be screened after comprehensively considering the scholastic ability examinations (written and oral examinations) and screening of the application documents.

- (2) Admission Criteria

Total	Remarks
300 points	In order to pass the examination, applicants must earn at least 60% of the total points.

- (3) Scholastic Ability Examinations

Please note that examination detail differs depending on the Course.

Written Examination Thursday, August 21, 2025 at 10:00 ~ 12:00

Oral Examination Thursday, August 21 or Friday, August 22, 2025 Time Undecided

Course	Written Examination	Oral Examination
Life Science	English examination (for foreign student, there also may be a Japanese examination) Asking for primary knowledge and foreign language ability of specialized field. Depending on the course decision, TOEIC, TOEFL or IELTS score is accepted as substitution. There is no expiration date for TOEIC, TOEFL or IELTS score.	Asking for a master's degree thesis or research progress report and research plan. Also asking the skill and will to conduct the research.
Material Science		Asking for a master's degree thesis or research progress report and research plan. For English ability will be evaluated through oral examination.
Mathematics, Electronics and Informatics	English examination (for foreign student, there also may be a Japanese examination) Depending on the course decision, TOEIC (or other external examination) score is accepted as substitution. Asking for primary knowledge and foreign language ability of specialized field. There is no expiration date for TOEIC (or other external examination) score.	Asking for a master's degree thesis or research progress report and research plan. Also asking the skill and will to conduct the research.
Mechanical Engineering and Science		Asking for research achievement, research plan and English (for foreign student, there also may be a Japanese) Also asking the skill and will to conduct the research.

Environmental Science and Infrastructure Engineering	English examination (for foreign student, there also may be a Japanese examination) For English ability, will be measured by course original examination or external examination result. It would be judged respectively by course. External examination covers TOEIC, TOEFL or IELTS(*)	Asking for a master's degree thesis or research progress report and research plan. Also asking the skill and will to conduct the research.
Joint Frontier Studies	Nuclear Physics and Astrophysics---conform with Material Science course Interdisciplinary Electronic Technology---conform with Mathematics, Electronics and Informatics course Brain Science---conform with Life Science course Interdisciplinary Theoretical and Mathematical Science---confirm with Material Science course	

(*) Results of external examination conducted within three(3) years prior to the date of submission to the University will be considered effective. Applicants should submit TOEIC L&R (including IP) results (original copy of the official score certificate or report, and its photocopy) or TOEFL (PBT or iBT) results (original copy of the Examinee's Score Report, and its photocopy) or IELTS results (original copy of the Test Report and its photocopy) at the time of application. The original copy will be returned after the interview.

(4) Examination Place

School of Science and School of Engineering, Saitama University
(Shimo-Okubo 255, Sakura-ku, Saitama-shi)

Kita-urawa Station, West Exit of JR East Keihintohoku Line (Transfer)

⇒ Bus (approx. 15 minutes) to Saitama University

Minamiyono Station of JR East Saikyo Line (Transfer)

⇒ Bus (approx. 10 minutes) to Saitama University

(* Bus stops to (or via) Saitama University at the Minamiyono Station are located at North Entrance and West Exit of JR East Minamiyono Station. Please note that there are no frequent bus services available from West Exhibit of JR East Minamiyono Station.)

(5) Guidance on examination rooms and certain matters that require attention will be sent with the examinee card. Should the examinee card fail to reach the applicant on or prior to Wednesday, August 6, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

6. Announcement of Successful Applicants

We will post the examinee numbers of successful applicants on the bulletin board of the Graduate School of Science and Engineering, Saitama University on Monday, September 8, 2025 at 10:00 a.m., and deliver a letter of acceptance to successful applicants for April 2026 intake, letter of acceptance and documents of enrollment procedure to successful applicants for October 2025 intake after checking with the examinee card at the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

Those who graduated from Saitama University should receive a letter of acceptance at the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

7. Admission Procedure

(1) Admission Procedure Dates

Admissions for the semester starting in April 2026: Saturday, March 14 and Sunday, March 15, 2026 between 9:00 and 17:00

Admissions for the semester starting in October 2025: Wednesday, September 17 and Thursday, September 18, 2025 between 9:00 and 17:00

(2) Documents to Be Submitted: Examinee card of the Doctoral Courses of the Graduate School of Science and Engineering, Saitama University, and other documents to be designated by the University (to be notified to successful applicants)

(3) Payments: Entrance fee and tuition fee

To be determined for FY2026 entrants

(Reference) For FY2025 entrants, the entrance fee is JPY282,000, and the tuition fee (for the first semester) is JPY267,900 (JPY535,800 a year).

However, no entrance fee is required for those who are expected to complete the master's program of Saitama University in March, 2026 (or, for admissions for semester starting in October 2025, in September 2025).

For the purpose of admission procedure, successful applicants or their substitutes should bring the documents designated by the University directly to the office of the University.

The admission procedure by mail is acceptable. More details will be provided to successful applicants.

*1. You can pay the tuition fee for the second semester, if you wish, when you pay the tuition fee for the first semester.

If any person whose withdrawal of admission is approved after the completion of the admission procedure requests on or prior to 17:00 on Tuesday, March 31, 2026 (or, for admissions in the semester starting in October 2025, Tuesday, September 30, 2025) that the tuition fee once paid be refunded, we will refund the amount equivalent to such tuition fee.

*2. Upon admission, you will need to pay some minor charges such as the premium for Personal Accident Insurance for Student Pursuing Education and Research, in addition to the entrance fee mentioned above.

*3. If the amount of the tuition fee is revised while you are enrolled, the new tuition fee will be applicable at the time of revision.

*4. There is a system in which we may permit any students who find it difficult to pay the entrance fee and tuition fee for economic or other reasons to be exempted from or defer payment through the selection process. Details will be notified to successful applicants.

(If you wish to withdraw admission after you submit an application for exemption from or deferral of payment, you will need to pay the entrance fee.)

*5. If you fail to complete the admission procedure within the designated period, you will be treated as if you have withdrawn admission.

8. Matters That Require Attention

(1) Please be fully aware that when you apply for admission, we may not accept your application unless you have prepared all the required documents.

(2) We will not return the documents submitted and refund the application fee paid once we accept the application documents. For applicants who have submitted the original TOEIC, TOEFL or IELTS score certificates, we will refund those original certificates to them after the interview.

If any one of the following occurs to you, you can demand that we refund the application fee.

(i) When you did not submit the application (i.e., did not submit the application documents or the application was not accepted), although you paid the application fee;

(ii) When you doubly paid the application fee in error; and

(iii) When you applied for exemption from payment of the application fee at the time of application and submitted the disaster victim or other certificate to Saitama University at a later date.

In order to demand that the application fee once paid be refunded, please prepare a "request form for refundment of the application fee" (in any acceptable format; however, for the purpose of (iii) above, you must use the designated form) specifying the reason for demand for refundment, your name (with *furigana*), current address, contact telephone number, name of financial institution with which you have the account to receive refundment, name of branch, type of deposit account, account number (or, in the case of Japan Post Bank, the branch name and account number to receive refundment), and name of account holder (limited to the account kept in the name of the applicant), and promptly send it to the following addressee with the relevant "Payment Receipt Certificate." (You should write "Request Form for Refundment of the Application fee Enclosed" on the envelope in red.)

In the case of (iii) above, also please attach the disaster victim certificate issued by the competent municipality.

Addressee: [Cashier Section, Accounting Department, Financial Affairs Division], Saitama University, Shimo-Okubo 255, Sakura-ku, Saitama-shi 338-8570

(Refundment process will require a month or so after the acceptance of the request.)

(3) You may use a computer when you complete the application forms designated by Saitama University.

(4) If you have any questions about the application procedure, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering (telephone: 048-858-3430).

(5) You will not be allowed to change any descriptions in the application documents for any reason after we accept those documents. If, however, there are changes to your address and telephone number, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

- (6) If any of the descriptions in the documents submitted are found untrue, we may rescind the admission even after you have been admitted.

9. Scholarships

We will notify successful applicants of reserved adoption of scholarships from the Japan Student Services Organization (formerly Japan Scholarship Foundation).

10. Second Invitation

If the number of successful applicants does not equal the number of students invited, we will make a second invitation.

For details, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

11. Course Term Extension Program

If it is difficult for you to complete the standard period for the completion of the program (3 years) due to such circumstances as you having an occupation, the “Course Term Extension Program” is available, in which we approve that you extend the enrollment period for planned completion of the curricula within a certain period of time (up to a maximum of 6 years). You need to take the procedure when enrollment if you apply for this program

12. Certification of the Application Eligibility (7) and (8)

- (1) The scope of “Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology” as stipulated in the Application Eligibility criteria (7) refer to those who satisfy the following requirements (i) and (ii):
 - (i) Those who have engaged in research at a university or research institute for two (2) years or longer after graduating from a university or completing the 16-year programs of school education in any foreign country; and
 - (ii) Those who have research results that are deemed equivalent to or higher than a master’s degree thesis in terms of books, academic papers, academic presentations, academic reports, or patents.
- (2) The scope of “Those who have been recognized by the Graduate School as having the scholastic ability as or higher than those who have earned a master’s degree as a result of individual examination of application eligibility and have reached the age of 24 or will reach the age of 24 by March 31, 2026(or, for admissions for semester starting in October 2025, September 30, 2025)” stipulated in the Application Eligibility criteria (5) refers to those who satisfy the following requirements (i) and (ii):
 - (i) Those who have graduated from a university, college, college of technology, specialized training college, or vocational school, or have completed any other educational facility, and have business experience at a university or other research institute, or in the science or technology-related field; and
 - (ii) Those who have research results that are deemed equivalent to or higher than a master’s degree thesis in terms of books, academic papers, academic presentations, academic reports, or patents.
- (3) The Graduate School of Science and Engineering will conduct examination for certification of the application eligibility and refrain from receiving the application documents until the examination is finished.

13. Method of Communication in Case of Emergency

If it seems unlikely that we will be able to conduct the examination as scheduled due to a natural disaster or any other cause, we will announce whether or not the examination will take place at 4:00 p.m. on the day prior to the examination date on the webpage of the Graduate School of Science and Engineering. Be sure to check it. [博士前期課程\(修士課程\) – 埼玉大学理工学研究科](#)

14. Security export control

Saitama University has established the “Saitama University Security Export Control Regulations” in accordance with Japan’s “Foreign Exchange and Foreign Trade Act”, and rigorously screens potential international students based on these regulations.

Please be aware that international applicants who fall under any of the conditions set out in said regulations may not receive permission to enroll at the university or may have their research activities restricted.

Details can be obtained from the following website: Saitama University Security Export Control Regulations:

<https://www.saitama-u.ac.jp/houki/houki-n/reg-n/2-3-16.pdf>
(Japanese only)

II. Doctoral Courses of Graduate School of Science and Engineering, Saitama University
[Admissions for the Semester Starting in April 2026]
[Admissions for the Semester Starting in October 2025]
Application Procedure for Adult Admission Examinations

As a result of remarkable advances in science and technology, there is an increasing need for human resources that have basic scholastic ability and a perspective broad enough to cope with the rapid progress of research, in addition to highly sophisticated research ability in diversified sectors of real society, and also are able to play leading roles.

Responding to such social requirements, the Doctoral Courses of Graduate School of Science and Engineering is paving the way to accept adults who are just now becoming active in various research institutes, education institutions and companies, and intends to further deepen the interchange of the university and society in the sphere of education and research.

With the above-mentioned goal, we will invite adults who have professional research ability suitable for admission to the doctoral courses under the following screening criteria.

1. Number of Students Invited

Program	Name of Course	Number of Students Invited	Remarks
Science and Engineering	Life Science	Unspecified but only a few	
	Materials Science		
	Mathematics, Electronics and Informatics		
	Mechanical Engineering and Science		
	Environmental Science and Infrastructure Engineering		
	Joint Frontier Studies*		

*Nuclear Physics and Astrophysics field, Interdisciplinary Electronic Technology field, Brain Science field and Interdisciplinary Theoretical and Mathematical Science

Note: Students may not be accepted due to the mandatory retirement of a professor or any other cause. Due to this reason, be sure to consult with the professor you want to be instructed by before you submit the application documents.

2. Application Eligibility

Scientists or engineers who work as regular employees for various research institutes, education institutes or companies and continue to hold such status even after the admission, provided that they meet any one of the following criteria:

- (1) Those who have earned a master's degree or professional degree;
- (2) Those who have been granted any degree equivalent to a master's degree or professional degree in any foreign country;
- (3) Those who have completed correspondence courses provided by any foreign school in Japan and have been granted any degree equivalent to a master's degree or professional degree;
- (4) Those who has been conferred a degree equivalent to a master's degree or professional degree by completing a foreign education course in Japan provided by an educational institution which is recognized as equivalent to a foreign graduate school by the Minister of Education, Culture, Sports, Science and Technology.
- (5) Those who has completed a course at the United Nations University and has been conferred a degree equivalent to a master's degree.
- (6) Those who has been recognized as having scholastic aptitude that is equal to or greater than that of a master's degree holder by completing a curriculum at a school of the foreign country, an educational institution designated as referred to in (iv) or the United Nations University and passing the requirements equivalent to an examination and review prescribed in Article 16.2 in Standards for the Establishment of Graduate Schools.
- (7) Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology; and

- (8) Those who have been recognized by the Graduate School as having the scholastic ability as or higher than those who have earned a master's degree through individual examination of application eligibility and have reached the age of 24 or will reach the age of 24 by March 31, 2026 (or, for admissions for the semester starting in October 2025, September 30, 2025).

* For the application eligibility (7) and (8), please refer to “Certification of Application Eligibility (7) and (8)” on page 12.

If you have any questions about the application eligibility, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering (telephone: 048-858-3430).

3. Application Procedure

(1) Method of Application

Applicants should submit the following documents in person or by mail.

If you send the documents by mail, please write “Application Documents for the Doctoral Courses of Graduate School of Science and Engineering Enclosed” on the envelope in red, and send them by registered mail, so that those documents may reach us on or prior to the deadline.

(2) Application Period

From Monday, June 23 to Friday, June 27, 2025

For those who apply under the application eligibility (7) and (8), the documents must reach us on or prior to Wednesday, June 18, 2025.

The acceptance hours are between 9:00 and 16:00.

(3) Documents to Be Submitted

Documents to be Submitted	Matters That Require Attention
Admission application form, examinee card, photo card, curriculum vitae	Please complete the form designated by the Graduate School. A front view, upper body photograph without a hat taken within the last 3 months should be affixed onto the designated space.
Undergraduate certificate and official transcript	Please submit the undergraduate certificate and official transcript prepared by the president or dean of the university/college you have graduated from.
Certificate of (expected) completion of the master's program, and official transcript	Please submit the certificate of completion and official transcript prepared by the president and dean of the university/college you have graduated from.
Application fee:	<p>Application fee: JPY30,000</p> <p>Method of payment:</p> <p>Make a payment at a convenience store.</p> <p>Please refer to the “How to Pay the Application Fee at Convenience Store” attached hereto.</p> <p>* Please pay the application fee at your earliest convenience (acceptable even prior to the application period) and note that paying after the expiry of the application period is not acceptable.</p> <p>Exemption from payment of the application fee:</p> <p>Applicants whose school expenses payers reside in any of the regions governed by the Disaster Relief Act and can obtain a disaster victim certificate of total destruction, outflow or partial destruction of house issued by the competent municipality during the period from April 1, 2025 to the time of application are exempted from payment of the application fee.</p> <p>Applicants who wish to be exempted from payment of the application fee should print out the request form for exemption from payment of the application fee from the website of the University, complete the form, and submit it together with the application documents and the disaster victim or other certificate. (If this is the case, please refrain from paying the application fee.)</p> <p>If you cannot submit the disaster victim or other certificate at the time of application, please pay the application fee and submit the request form for exemption from payment of the application fee only. When you submit the disaster victim or other certificate at a later date, we will refund the application fee paid.</p>
Form to which the payment receipt certificate is to be attached	The form designated by the Graduate School to which the “payment receipt certificate” issued by the relevant financial institution is attached.

Master's degree or other thesis	(1) For those who have prepared a degree thesis at the time of completion of the master's program, a copy of the degree thesis and its summary (up to 2,000 characters (or up to 500 words in English)) using the sheet designated by the Graduate School. (2) For those who do not fall under (1), a research progress report (up to 2,000 characters (or up to 500 words in English)) using the sheet designated by the Graduate School.
Research achievement report	If any academic papers, research presentation or other materials are available, please submit them by attaching extra prints or copies of them to the sheet designated by the Graduate School.
Research plan	Up to 1,000 characters (or up to 300 words in English) using the sheet designated by the Graduate School.
Permission for admission examination	Form designated by the Graduate School and completed by the relevant supervisor.
Statement on Research Achievements (to be submitted by applicants for adult admission examinations)	Please complete the form designated by the Graduate School.
Examination statement of certification of eligibility for application for admission examination	If you apply under the eligibility criteria (7) or (8), please complete the form designated by the Graduate School.
Research experience certificate	If you choose to submit the examination statement of certification of eligibility for application for admission examination mentioned above, please attach this certificate to the application documents.
Envelope for sending examinee card	Envelope for sending the examinee card. Regular-sized envelope (12 cm x 23.5 cm) on which the address, addressee and postal code are indicated, with a ¥110 stamp affixed.

- (4) Office to Which You Should Submit the Application Documents
Graduate School Affairs Section, Graduate School of Science and Engineering, Saitama University
Shimo-Okubo 255, Sakura-ku, Saitama-shi, 338-8570 JAPAN

4. Prior Consultation for Applicants with Disabilities (Refer to page 14)

5. Screening Methods

- (1) Applicants will be screened after comprehensively considering the scholastic ability examinations (oral examination) and screening of the application documents.
- (2) Admission Criteria
In order to pass the examination, applicants must earn at least 60% of the total points.

(3) Scholastic Ability Examination

Category	Date and time	Details
Oral examination	Friday, August 21 or 22, 2025 Time Undecided	Examination into research achievements and research plan, as well as English

(4) Examination Place

School of Science and School of Engineering, Saitama University
(Shimo-Okubo 255, Sakura-ku, Saitama-shi)

[Kita-urawa Station, West Exit of JR East Keihintohoku Line (Transfer)
⇒ Bus (approx. 15 minutes) to Saitama University
Minamiyono Station of JR East Saikyo Line (Transfer)
⇒ Bus (approx. 10 minutes) to Saitama University]

(* Bus stops to (or via) Saitama University at the Minamiyono Station are located at North Entrance and West Exit of JR East Minamiyono Station. Please note that there are no frequent bus services available from West Exit of JR East Minamiyono Station.)

- (5) Guidance on examination rooms and certain matters that require attention will be sent with examinee

card. Should the examinee card fail to reach the applicant on or prior to Thursday, August 6, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

6. Announcement of Successful Applicants

We will post the examinee numbers of successful applicants on the bulletin board of the Graduate School of Science and Engineering, Saitama University on Monday, September 8, 2025 at 10:00 a.m., and deliver a letter of acceptance to successful applicants for April 2026 intake, letter of acceptance and documents of enrollment procedure to successful applicants for October 2025 intake after checking with the examinee card at the office of Graduate School Affairs Section, Graduate School of Science and Engineering. We will send a letter of acceptance to successful applicants who did not receive it on the date of announcement by mail.

7. Admission Procedure

(1) Admission Procedure Dates

Admissions for the semester starting in April 2026: Saturday, March 14 and Sunday, March 15, 2026 between 9:00 and 17:00

Admissions for the semester starting in October 2025: Wednesday, September 17 and Thursday, September 18, 2025 between 9:00 and 17:00

(2) Documents to Be Submitted: Examinee card of the Doctoral Courses of the Graduate School of Science and Engineering, Saitama University, and other documents to be designated by the University (to be notified to successful applicants)

(3) Payments: Entrance fee and tuition fee

To be determined for FY2026 entrants

(Reference) For FY2025 entrants, the entrance fee is JPY282,000 and the tuition fee (for the first semester) is JPY267,900 (JPY535,800 a year).

For the purpose of admission procedure, successful applicants or their substitutes should bring the documents designated by the University directly to the office of the University.

The admission procedure by mail is acceptable. More details will be provided to successful applicants.

*1. You can pay the tuition fee for the second semester, if you wish, when you pay the tuition fee for the first semester.

If any person whose withdrawal of admission is approved after the completion of the admission procedure requests on or prior to 17:00 on Tuesday, March 31, 2026 (or, for admissions in the semester starting in October 2025, Tuesday, September 30, 2025) that the tuition fee once paid be refunded, we will refund the amount equivalent to such tuition fee.

*3. Upon admission, you will need to pay some minor charges such as the premium for Personal Accident Insurance for Student Pursuing Education and Research, in addition to the entrance fee mentioned above.

*4. If the amount of the tuition fee is revised while you are enrolled, the new tuition fee will be applicable at the time of revision.

*5. There is a system in which we may permit any students who find it difficult to pay the entrance fee and tuition fee for economic or other reasons to be exempted from or defer payment through the selection process. Details will be notified to successful applicants.

(If you wish to withdraw admission after you submit an application for exemption from or deferral of payment, you will need to pay the entrance fee.)

*6. If you fail to complete the entrance procedure within the designated period of time, you will be treated as if you have withdrawn admission.

8. Matters That Require Attention

(1) Please be fully aware that when you apply for admission, we may not accept your application unless you have prepared all the required documents.

(2) We will not return the documents submitted and refund the application fee paid once we accept the application documents. For applicants who have submitted the original TOEIC and/or TOEFL score certificates, we will refund those original certificates to them after the interview.

If any one of the following occurs to you, you can demand that we refund the application fee.

(i) When you did not submit the application (i.e., did not submit the application documents or the application was not accepted), although you paid the application fee;

(ii) When you doubly paid the application fee in error; and

(iii) When you applied for exemption from payment of the application fee at the time of application and submitted the disaster victim or other certificate to Saitama University later.

In order to demand that the application fee once paid be refunded, please prepare a "request form for refundment of the application fee" (in any acceptable format; however, for the purpose of (iii) above,

you must use the designated form) specifying the reason for demand for refundment, your name (with *furigana*), current address, contact telephone number, name of financial institution with which you have the account to receive refundment, name of branch, type of deposit account, account number (or, in the case of Japan Post Bank, the branch name and account number to receive refundment), and name of account holder (limited to the account kept in the name of the applicant), and promptly send it to the following addressee with the relevant “Payment Receipt Certificate.” (You should write “Request Form for Refundment of the Application fee Enclosed” on the envelope in red.)

In the case of (iii) above, also please attach the disaster victim certificate issued by the competent municipality.

Addressee: Cashier Section, Accounting Department, Financial Affairs Division, Saitama University, Shimo-Okubo 255, Sakura-ku, Saitama-shi 338-8570

(Refundment process will require a month or so after the acceptance of the request.)

- (3) You may use a computer when you complete the application forms designated by Saitama University.
- (4) If you have any questions about the application procedure, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering (telephone: 048-858-3430).
- (5) You will not be allowed to change any descriptions in the application documents for any reason after we accept those documents. If, however, there are changes to your address and telephone number, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.
- (6) If any of the descriptions in the documents submitted are found untrue, we may rescind the admission even after you have been admitted.

9. Second Invitation

As to whether or not there will be a second invitation, please contact the office of Graduate School Affairs Section, Graduate School of Science and Engineering.

10. Course Term Extension Program

If it is difficult for you to complete the standard period for the completion of the program (3 years) due to such circumstances as you having an occupation, the “Course Term Extension Program” is available, in which we approve that you extend the enrollment period for planned completion of the curricula within a certain period of time (up to a maximum of 6 years). You need to take the procedure when enrollment if you apply for this program.

11. Certification of the Application Eligibility (4) and (5)

- (1) The scope of “Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology” as stipulated in the Application Eligibility criteria (4) refer to those who satisfy the following requirements (i) and (ii):
 - (i) Those who have engaged in research at a university or research institute for two (2) years or longer after graduating from the university or completing the 16-year programs of school education in any foreign country; and
 - (ii) Those who have research results that are deemed equivalent to or higher than a master’s degree thesis in terms of books, academic papers, academic presentations, academic reports, or patents.
- (2) The scope of “Those who have been recognized by the Graduate School as having the scholastic ability as or higher than those who have earned a master’s degree as a result of individual examination of application eligibility and have reached the age of 24 or will reach the age of 24 by March 31, 2026(or, for admissions for semester starting in October 2025, September 30, 2025)” stipulated in the Application Eligibility criteria (5) refers to those who satisfy the following requirements (i) and (ii):
 - (i) Those who have graduated from a university, college, college of technology, specialized training college, or vocational school, or have completed any other educational facility, and have business experience at a university or other research institute, or in the science or technology-related field; and
 - (ii) Those who have research results that are deemed equivalent to or higher than a master’s degree thesis in terms of books, academic papers, academic presentations, academic reports, or patents.
- (3) The Graduate School of Science and Engineering will conduct examination for certification of the application eligibility and refrain from receiving the application documents until the examination is finished.

12. Method of Communication in Case of Emergency

If it seems unlikely that we will be able to conduct the examination as scheduled due to a natural disaster or any other cause, we will announce whether or not the examination will take place at 4:00 p.m. on the day

prior to the examination date on the webpage of the Graduate School of Science and Engineering. Be sure to check it.

[博士前期課程\(修士課程\) – 埼玉大学理工学研究科](#)

13. Security export control

Saitama University has established the “Saitama University Security Export Control Regulations” in accordance with Japan’s “Foreign Exchange and Foreign Trade Act”, and rigorously screens potential international students based on these regulations.

Please be aware that international applicants who fall under any of the conditions set out in said regulations may not receive permission to enroll at the university or may have their research activities restricted.

Details can be obtained from the following website: Saitama University Security Export Control

Regulations:

<https://www.saitama-u.ac.jp/houki/houki-n/reg-n/2-3-16.pdf>
(Japanese only)

III. Privacy Policy

Saitama University is committed to protecting the individual privacy of applicants and students by restricting the use of all collected information as specified by Policies on the Protection of Personal Information Held by Saitama University based on the Act on the Protection of Personal Information Held by Independent Administrative Agencies. In accordance with these policies, the information on this application may be used by SU officials only for appropriate administrative and research purposes.

IV. Prior Consultation for Applicants with Disabilities

For the applicant with disabilities who wishes for us a special consideration to take admission examination and studies, please apply for the prior consultation before submitting the application as below.

If you have a query and in case you cannot apply for the prior consultation by the deadline of prior consultation, please contact the following office:

Contact office: Graduate School Affairs Section, Graduate School of Science and Engineering,
Saitama University
Shimo-Okubo 255, Sakura-ku, Saitama-shi 338-8570
Telephone: 048-858-3430 (9:00 to 17:00, Monday to Friday)

Deadline for submission of prior consultation documents: Wednesday, May 28, 2025

1. Method of Application

Please submit the designated application form (*) together with a medical certificate (original copy issued for the last six (6) months) and a copy of the physical disability certificate, if any. Whenever necessary, officials of the Graduate School of Science and Engineering may interview the applicant or his/her guardian or any person who can speak on his/her behalf about his/her status.

(*) The application form can be downloaded from our website

https://www.saitama-u.ac.jp/entrance/exam_info/consultation/hairyo-shinsei.pdf

2. If you have obtained the permission for taking the examination after this application, please notify the above-mentioned office thereof when you submit the application documents.
3. If you have obtained the permission for taking the examination after this application but choose to withdraw your application or refrain from taking the examination, please contact the above-mentioned office by telephone promptly and notify us of your choice by postcard or letter.

V. Disclosure of Admission Examination Information

The Doctoral Courses of Graduate School of Science and Engineering will disclose and provide the following admission examination information:

- Information to be disclosed upon request
Total points of the admission examination results
- Method for request for disclosure
 - Those who are eligible to request: Unsuccessful applicants only
 - Method for request:
If you make a request by mail, you should complete and send the “Request Form for Disclosure of Admission Examination Information of the Doctoral Courses of Graduate School of Science and Engineering, Saitama University” (the form of which is attached to the application guidelines), together with an envelope (12 cm x 23.5 cm-sized envelope with stamps in the value of JPY460 (for registered mail) on which your address and name are specified), and your examinee card.
If you make a request at the office counter, you should complete and submit the “Request Form for Disclosure of Admission Examination Information of the Doctoral Courses of Graduate School of Science and Engineering, Saitama University” (the form of which is attached to the application guidelines). Also please present your examinee card.
 - Request period: Thursday, October 2 to Friday, October 3, 2025
 - Office to which your request is to be made:
Office of Graduate School Affairs Section, Graduate School of Science and Engineering,
Saitama University
Shimo-Okubo 255, Sakura-ku, Saitama-shi 338-8570
(Note) If you send the request form by mail, you should write “Request for Disclosure of Graduate School Admission Examination Information” in red.
 - Method of disclosure:
We will deliver the information by mail or at the office counter after the expiry of the request period. The delivery date will be notified at the time of request. If you receive a delivery of the information, please present your examinee card.

OEconomic Support for Students in Doctoral Courses

Students in the doctoral courses will be paid a salary (in the amount equal to the tuition) when they serve as a research assistant (RA).

The Graduate School of Science and Engineering has been providing economic support for students in the doctoral courses since FY2009.

We will pay the amount equal to the tuition fee for students enrolled with the Doctoral Courses of Graduate School of Science and Engineering (approximately 1/2 for students who are exempted from payment of the entire tuition fee or receive any scholarship), with the goal of helping students with excellent talents and abilities so that they can be devoted in study and research without worrying about an economic burden. This means that we pay them a salary in consideration for providing research support services as a research assistant (RA).

[Subjects]

- ◎ Students enrolled with the Doctoral Courses of Graduate School of Science and Engineering (including newly enrolled students)

[Amounts to be paid for FY2021]

Category	Upper amount for annual services
General students (including those exempted from payment of half of the tuition fee)	JPY536,200
Students exempted from payment of the entire tuition fee (throughout the year)	JPY268,800
Students who receive any scholarship	JPY268,800
RIKEN (Institute of Physical and Chemical Research)'s International Program Associates (IPAs) (i.e., foreign students from RIKEN's joint overseas graduate schools)	JPY268,800

Any persons who fall under any one of the following are not eligible to receive this support:

- (1) Foreign government-sponsored students and other foreign government-dispatched students whose tuition fees are supported by their home countries;
- (2) Students who receive research fellowship for young scientists of Japan Society for the Promotion of Science, and RIKEN's Junior Research Associates (JRAs);
- (3) Adult students;
- (4) Students repeating a course; and
- (5) Students taking a leave of absence.
